About us

GR Pet Preforms, a professionally managed company is engaged in manufacturing of Preforms. It started its commercial production of PET preforms for bottles and jars in 2008 under the brand name of "GR". Considering the Clients' demand PP Preforms for Bottles were developed and added in the range subsequently.

The state of art manufacturing setup is located at Silvassa (U.T.) having corporate office at Mumbai-India.

The quality norms are met by using prime grade virgin material and moulding it on top of the line moulding machines & ancillaries with high precision moulds and strict Quality Control. This ensures minimum drop of IV, maintains AA level, offers good clarity and surface gloss with optimum strength.

Preform eccentricity is maintained to ensure uniform distribution of material and allows the blower to stretch blow it to the fullest and achieve maximum strength to weight ratio.

Customised preforms and in house blowing facility, facilitates the client for new development and a pilot run.

"GR" Preforms is a preferred brand to develop and supply jars to well-known brands like Boost, Horlicks, Lipton, etc.

With stringent quality control, constant endeavor to improve, prompt service and continuous research & development, GR Pet Preforms has succeeded in establishing its name across the globe as one of the leading suppliers of PET & PP Preforms.
